SUBJECT : Request for Approval to Add Two Days' Stops to Planned
Travel

You have approved my attendance at the three-day conference at the Technical Aspects of Nuclear Commerce to be held in Coronado, California 23-26 January 1983. This is to request your approval to add a day (27 January) at Rand in Santa Monica and a day (28 January) at the Livermore Laboratory in Livermore. Both days would be used to consult with analysts concerning their projects on Soviet nonproliferation policies. I propose to use a car for these two portions of the trip and therefore also request your approval for its rental.
